### **Cal Poly Inclusive Restroom Program Expanding**

Cal Poly's Inclusive Restroom Committee is pleased to announce increased access to All Gender restrooms on campus. After hearing feedback from students who called for additional All Gender restrooms on campus, a university committee was convened to identify the best strategies for providing increased accessibility. This effort aimed to center the needs and experiences of our transgender, nonbinary, and/or gender non-conforming community as well as those who require assistance from caregivers or family members. The 18-member committee — which includes students, faculty and staff from a variety of university programs — met regularly earlier this year to identify the additional 15 restrooms that will be converted to All Gender, multi-stall restrooms. Changing of signage on these restrooms is expected to begin June 1. The webpage, below, currently includes background on the university's efforts, information about the committee members and additional educational resources. More information about the program, including a map of All Gender restrooms on campus, will be added at a later date. Learn more: <https://afd.calpoly.edu/facilities/services/all-gender-restrooms>.
